Dr Hölscher will give an overview of the EBRD, global aspects of its work and its evolving mandate to foster transition to a market economy in the Bank's countries of operations.

This seminar would be useful to those interested in the work of the EBRD as well as international organisations in general. The Transition Report 2016-17, published last November, will be available at the seminar.

Please register in advance by Wednesday, 22 March with Keiko Takahashi at EBRD Japanese Board Director's Office (e-mail: Takahask@ebrd.com).
