

Major Office	Profile	Programme/Area of Work	Duty Station	Assignment	Summary of Assignment
Multiple	MDS/21/01	Digital Health and Innovation	Brazzaville, Congo (AFRO); Washington DC, USA (AMRO/PAHO); Cairo, Egypt (EMRO); Copenhagen, Denmark (EURO); New Delhi, India (SEARO); Manila, Philippines (WPRO)	Technical Officer	The Junior Professional Officer (JPO) will support the WHO Innovation Team within the Digital Health and Innovation Department (DHI), in coordination with stakeholders across WHO Regional Offices, Country Offices and other organizations, to implement the WHO Innovation in Health Strategy to accelerate the achievement of WHO's Triple Billion target, and the health-related Sustainable Development Goals in support of Member States. The JPO will provide technical support on health innovation to countries by supporting the implementation of key initiatives, scaling and sustaining specific health innovation, harnessing an innovation culture, and engaging with partners to implement needs-driven innovation for impact.
Multiple	MDS/19/02	Maternal, Newborn, Child and Adolescent Health	Liberia, Nigeria, Uganda, India, Timor-Leste, Pakistan and Egypt	Technical Officer	The Junior Professional Officer (JPO) will work as a member of the country team to support WHO's work in midwifery, including in the areas of sexual, reproductive, maternal, newborn, child and adolescent health (SRMNCH). In particular, the JPO will support the implementation of the joint WHO-UNFPA-UNICEF-ICM 2019 "Framework for Action: Strengthening quality midwifery education for universal health coverage (UHC) 2030" in the context of improving quality of care through the global network for quality of care, which is actively led by the governments in both Sierra Leone and Malawi. The JPO will participate in efforts to harmonize support to countries in the design and implementation of national health strategies and plans in the context of SRMNCH and with an integrated focus on midwifery, in the context of the UN Secretary General's Every Woman Every Child initiative, Sustainable Development Goal 3 to help catalyse the related Global Strategy for Women's, Children's and Adolescent's Health 2016-30. The overall aim is to work towards universal coverage of effective midwifery interventions to reduce morbidity and mortality among women, children and adolescents, and to improve health and development. In 2020, "The International Year of the Nurse and the Midwife", the JPO will have a unique opportunity to be engaged and actively support the development and implementation of the advocacy and communications strategy, in partnership with the International Confederation of Midwives (ICM), The International Council of Nurses (ICN) and the Nursing Now campaign.
