I. Organizational Context (generic text)

The United Nations Industrial Development Organization (UNIDO) is the specialized agency of the United Nations that promotes industrial development for poverty reduction, inclusive globalization and environmental sustainability. The mission of UNIDO, as described in the Lima Declaration adopted at the fifteenth session of the UNIDO General Conference in 2013 as well as the Abu Dhabi Declaration adopted at the eighteenth session of UNIDO General Conference in 2019, is to promote and accelerate inclusive and sustainable industrial development (ISID) in Member States. The relevance of ISID as an integrated approach to all three pillars of sustainable development is recognized by the 2030 Agenda for Sustainable Development and the related Sustainable Development Goals (SDGs), which will frame United Nations and country efforts towards sustainable development. UNIDO's mandate is fully recognized in SDG-9, which calls to "Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation". The relevance of ISID, however, applies in greater or lesser extent to all SDGs. Accordingly, the Organization's programmatic focus is structured in four strategic priorities: Creating shared prosperity; Advancing economic competitiveness; Safeguarding the environment; and Strengthening knowledge and institutions.

Each of these programmatic fields of activity contains a number of individual programmes, which are implemented in a holistic manner to achieve effective outcomes and impacts through UNIDO's four enabling functions: (i) technical cooperation; (ii) analytical and research functions and policy advisory services; (iii) normative functions and standards and quality-related activities; and (iv) convening and partnerships for knowledge transfer, networking and industrial cooperation. Such core functions are carried out in Departments/Offices in its Headquarters, Regional Offices and Hubs and Country Offices.

It plays a central role for interaction and collaboration with traditional and non-traditional donors; oversees the regional bureaux as well as the network of established field offices, liaison offices and Investment and Technology Promotion Offices; and supports the implementation of particularly complex projects, programmes and special assignments, thus also fulfilling an important role in safeguarding their quality and the reputation of the organization. The position is located in the Division of Regional Bureaus and Field Offices, Arab regional Bureau, Field office Morocco (GLO/RFO/ARB/MOR). The Division of Regional Bureaus and Field Offices (GLO/RFO) is responsible for the coordination of the field representation and interventions of UNIDO in Member States and regions.

The Junior Professional Officer (JPO) assignment will be task driven. He/she will work under the overall guidance of the UNIDO Representative in Morocco, in the Country Office in Morocco (RFO/ARB/MOR). The work plan will be prepared jointly by the direct supervisor, the UNIDO Representative and the JPO and will be updated periodically. Guidance will be provided on daily work outputs and they are monitored against tasks assigned and actually achieved.

The UNIDO Staff Performance Management System reinforces the collaboration within formal units as well as among cross-functional teams. In this context, the incumbent collaborates with his/her team and colleagues, within as well as outside the unit. Within the formal teams, the incumbent may be expected to backstop other team members as required
