- All selected candidates will undergo rigorous reference and background checks
- All applications will be treated with the strictest confidentiality
- FAO staff are subject to the authority of the Director-General, who may assign them to any of the activities or offices of the Organization.

The Food and Agriculture Organization of the United Nations (FAO) contributes to the achievement of the 2030 Agenda through the FAO Strategic Framework by supporting the transformation to MORE efficient, inclusive, resilient and sustainable agrifood systems, *for better production, better nutrition, a better environment, and a better life*, leaving no one behind.

Organizational Setting

The main aim of the FAO country offices, which are headed by an FAO Representative, is to assist the government to develop policies, programmes and projects, to achieve food security and to reduce hunger and malnutrition, to develop the agricultural, fisheries and forestry sectors and to use their environmental and natural resources in a sustainable manner. FAO Pakistan seeks to support the 2030 Agenda through the transformation to efficient, inclusive, resilient and sustainable agri-food systems for the four betters (better production, better nutrition, a better environment, a better life), and leaving no one behind in Pakistan. The Country Programming Framework (CPF) outlines three priority areas that will guide FAO's partnership with the Government of Pakistan for the next five years:

1. Basic Social Services
2. Climate Change and the Environment
3. Sustainable Inclusive Economic Growth and Decent Work

FAO Pakistan's largest contribution will be in addressing the challenges of climate change and the environment in agriculture, food security and related aspects. At the policy and institutional level, it will actively contribute to protect and sustainably exploit the Indus Basin, as well as ensure the sustainability of marine ecosystems. FAO Pakistan will also prioritize the promotion of sustainable rural livelihoods to support sustainable inclusive economic growth and decent work. Another significant contribution of FAO will be in strengthening food and nutrition systems to address the "leaving no one behind" agenda, including through social protection.

The post is located in the FAO Representation in Islamabad, Pakistan, with frequent travel to the field, especially Multan and Hyderabad.

Reporting Lines

The Junior Professional Officer (Agriculture) reports to the Senior Officer.

Technical Focus

The Junior Professional Officer (Agriculture) assists with implementation of a project funded by the Green Climate Fund called Transforming Indus Basin with Climate Resilient Agriculture and Water Management in Punjab and Sindh Provinces.
