

## JOB DESCRIPTION

### Junior Professional Officer, Research and Strategies for Export

<b>Category / Staff Rules</b>	<b>Junior Professional Officer / P-2</b>
<b>Division / Section</b>	<b>Division of Market Development / Strategies &amp; Policy For Trade &amp; Investment (DMD/ SPTI)</b>
<b>Duty station</b>	<b>Geneva</b>
<b>Comments</b>	<b>1 Year with possible extension</b>

#### ORGANISATIONAL CONTEXT AND ORGANISATIONAL SETTING

The International Trade Centre (ITC) assists developing and transition economy countries to take advantage of expanding trade opportunities in an increasingly complex global environment. ITC supports Trade Impact for Good, promoting sustainable and inclusive development goals through trade.

The Division of Market Development (DMD) provides thought leadership on MSME competitiveness, delivers competitive intelligence services, and supports governments in the design and implementation of trade development strategies. DMD provides supports to enterprises and business associations to provide a business perspective in the formulation of trade strategies and reform of policies and regulations at national and regional levels. The division promotes an inclusive public-private dialogue to address obstacles to international trade and investment and to provide customised solutions to remove them.

The JPO will contribute to these 2 functions of the section.

**SME Competitiveness - Outlook (SMECO) and Survey (SMECS):** As part of its analysis on the competitiveness of SMEs, ITC publishes the SMECO - ITC's annual flagship report. The report provides guidance to policy makers, SMEs and trade and investment support institutions on the latest trends affecting SMEs, and provides substantive inputs to outreach activities and programme development within ITC. Also as part of its analysis on the competitiveness of SMEs, ITC collects data on the competitiveness of enterprises in several countries. The data collection aims to assess the key elements that affect the competitiveness of SMEs. The SMECS also assists projects in the monitoring and evaluation of results. More information about RSE's Research function can be found at <https://intracen.org/resources/data-and-analysis/research-and-data>.

**The Trade Development Strategy Programme (TDSP)** consists of a cycle of research, tools development and field-level interventions. The TDSP assist countries in the design and management of trade-related strategies, including with developmentally oriented focus such as youth, gender and environmental sustainability. Increasingly, the TDSP also support client countries in the successful management of their strategy implementation, through the provision of specialized online tools to track implementation, expertise in establishing public-private management structures, and peer-to-peer collaboration. ITC is recognized as a frontrunner in the area of trade strategy design and management. More information about RSE's Strategy function can be found at <https://intracen.org/our-work/topics/trade-development-strategies>

The goal of this job function is to make a substantive contribution to both the research and strategy function of DMD RSE, including the SME Competitiveness Outlook, the SME Competitiveness Survey, the design and management of trade development strategies.

## DUTIES AND RESPONSIBILITIES

Under the overall guidance of the Chief, Strategies & Policy for Trade & Investment and the direct supervision of a Senior Officer, the Associate Programme Officer will be responsible for the following duties:

- Contributes to the preparation of various written outputs, e.g. draft background papers, analytical notes, sections of reports and studies, inputs to publications, notably the ITC SME Competitiveness Outlook and reports under the SME Competitiveness Survey
- Contribute to the implementation of selected technical assistance in trade strategy design and management, by organizing, and delivering national/sector level interventions.
- Monitor, research, and analyse key issues and emerging trends in trade, trade policy, SME competitiveness, and private sector development.
- Participates in survey initiatives; assists with design of data collection tools; issues data collection tools, reviews, analyzes, and interprets responses, identifies problems/issues and prepares preliminary conclusions.
- Assists in performing consulting assignments, in collaboration with the client, by planning facilitating workshops in the field, through other interactive sessions and assisting in developing the action plan the client will use to manage the change.
- Provides administrative and substantive support to consultative and other meetings, conferences, etc., to include proposing agenda topics, identifying and proposed participants, preparation of background documents and presentations, handling logistics, etc.
- Undertakes outreach activities; participates in the development of training workshops, seminars, etc.; participates in and makes presentations on assigned topics/activities.
- Guide national and international consultants, experts, and resource persons that the TDSP may recruit to achieve the required outputs and outcomes.
- Participates in field missions, including provision of substantive and administrative support, data collection, etc.
- Performs other duties as required.
