EURO	EU/22/03	Country Support and Collaboration	Copenhagen, Denmark	Technical Officer	<p>The Junior Professional Officer (JPO) will work in the Intelligence, Strategies and Networking (ISN) Unit within CSE division in WHO Regional Office for Europe, under the supervision of the ISN Team Lead. In particular, the JPO is expected to provide technical and organizational support in the implementation processes of the Delivering United Action for Better Health – a strategy for collaboration between the WHO Regional Office for Europe and member states in the WHO European Region that was recently adopted by the 72rd Session of the Regional Committee for Europe, by Resolution EUR/RC72/R8. The implementation falls under the stewardship of the CSE division and will inform and shape aspects of how the Regional Office, including all Divisions and Country Offices, will work with and in countries in the future.</p> <p>Against this backdrop, the JPO will have the opportunity to work as a member of the newly established Coordination Group (CG) for implementation of the first EURO strategy in 20 years. The JPO will provide technical and organizational support, including organizational support of interactions with key stakeholders (including Member States representatives, Heads of Country Offices and divisional colleagues), monitoring of implementation progress, organization of regular project team interactions; contribution to the development of tools and guidance notes; and support the elaboration of the implementation plan products. In addition, the JPO will participate in efforts to implement some of the strategy's key projects addressing Country Cooperation Strategy development, undertaking periodic stocktakes of collaboration and national health reviews, and ensuring and adequate and agreed model of collaboration with WHO/Europe.</p>
EURO	EU/22/02	Health data governance	Copenhagen, Denmark	Technical Officer	<p>The purpose of the position is to provide technical support on health data governance. The incumbent will also provide assistance to the Regional Adviser for the Digital Health Flagship and contribute as a team member towards the planning, coordination and implementation of strategic goals and activities of the unit. The purpose of the position is to provide technical support on health data governance. The incumbent will also provide assistance to the Regional Adviser for the Digital Health Flagship and contribute as a team member towards the planning, coordination and implementation of strategic goals and activities of the unit.</p>

EURO	EU/21/01	Health Partnerships - Universal Health Coverage	Tirana, Albania	Technical Officer	<p>The Albanian health sector needs strong stewardship by national authorities and enhanced health information management to ensure evidence informed policy decisions.</p> <p>The Junior Professional Officer (JPO) will work with the WHO country office team, supported by the WHO Regional Office for Europe and HQ's technical teams to provide technical support to key stakeholders, primarily the Ministry of Health and Social Protection (MoHSP), the Institute of Public Health - and in close coordination with health partners - to strengthen capacities for improving the health system and health outcomes in Albania. The JPO will work under the overall supervision of the WHO Representative (WR) and in close consultation with the public health officer and the emergency officer.</p> <p>The JPO will be responsible for supporting WHO's efforts to promote and guide health policy reforms with a view to strengthen primary health care (PHC) services as a key pillar to progress towards UHC, the strengthening of health system preparedness through building capacity for all-hazard preparedness and strengthening the core capacities for implementing the International Health Regulations (IHR). He/she will support the country office in implementing ongoing projects to address the NCD burden and will strengthen the overall capacity of the office to support health coordination, and to support the MoHSP in shaping the health reform agenda and implementing the priorities as defined in the national health sector strategy.</p> <p>The JPO will support the collection, analysis and reporting of data to consolidate the evidence base for health policy decisions and to provide regular updates and analysis on the health challenges and the progress towards UHC in Albania. He/she will work on the production of written reports and other advocacy materials and contribute to briefs for health partners and health advocacy efforts.</p> <p>Supervisor: WR, Head of Office</p>
EURO	EU/20/02	Health and Sustainable Development	Venice, Italy	Technical Officer	<p>The Junior Professional Officer (JPO) would support the WHO Regional Office for Europe activities in the area of health and sustainable development. Primarily, this would include to support the Coordinator on health and sustainable development in the production of evidence based technical resources by SDG targets; policy summaries and policy briefs on the cross cutting aspects of the SDG roadmap (e.g. health financing, public health services, etc.); SDG country snapshots through the WHO Heads of Offices; technical material in support of country missions; and country capacity building material.</p> <p>The JPO, as of the nature of the program, would be working with all programmatic areas within the WHO European Region, and provide technical support to the WHO country offices. The SDG program provides a large opportunity for learning on all health related aspects and covers the large dimension of public health policies. The SDG program would allow the incumbent to be in contact with a range of stakeholders, in particular UN agencies.</p> <p>Supervisor: Coordinator Health and Sustainable Development (SDG)</p>

EURO	EU/19/01	Healthy Cities Programme	Copenhagen, EURO	Technical Officer	<p>The Junior Professional Officer (JPO) would support the WHO Regional Office for Europe activities in the area of healthy cities and urban health. Primarily, this would include to support the Programme team in the production of evidence based technical resources; policy summaries and city profiles; technical material in support of country missions; and country capacity building material.</p> <p>The JPO, as of the nature of the program, would be working with all programmatic areas within the WHO European Region, and provide technical support to the WHO country offices. The Healthy Cities Programme (HCP) provides a large opportunity for learning on all aspects related to urban health and multi-level governance and covers the large dimension of local public health policies. The HCP would allow the JPO to be in contact with a range of stakeholders both internally and externally.</p> <p>Supervisor: Programme Manager, PCR/GOV</p>
